

THE MORNING APPEAL.

SATURDAY, JANUARY 23
 Eastern Advertising Agent 230-234 Temple Court Building New York City, E. Kratzfeldt.

HUMBOLDT COUNTY LEADS.

Mr. Nixon received the full support of the Humboldt delegation in the senatorial caucus, not simply for the reason that Mr. Nixon is a Humboldt, but because the members from this county are Humboldt-re—men who think and act for themselves and can always be depended upon to stand for principle and right, as against flattery and wrong.

While Mr. Nixon fully appreciates the support given him by the three gentlemen from Humboldt, as a personal endorsement of his candidacy, he takes more pride in the fact that it places Humboldt county in a position that is unassailable and honorable for future campaigns. It was in this county that the first definite plan of action was organized which brought forth the Silver party of Nevada, a party that in a few months overturned all the well laid plans of the old party manipulators and revolutionized the politics of this State; hence it is gratifying to know that in the new issue of "home rule" Humboldt again takes the lead.

Humboldt now stands in this position: It submitted its claims to the Silver party in caucus, the caucus ruled against it; it submits to the will of the party, but now appeals to the members of the party in future elections upon the question of "Nevada for Nevadans," be it senators or anything else. If the people of this State by their ballot will say that we must import talent to be respectably represented at Washington either in the Senate or in the different departments, we will bow to their ruling, but until that is done we intend to keep up this agitation and in doing this we represent ninety per cent of the electors of this county, and we believe seventy five per cent of those of other counties.—Silver State.

THE ARBITRATION TREATY.

The arbitration treaty, it is well to remember, has been perhaps as great a surprise to the statesmen of Great Britain and the United States as to the rest of the world. Contrast the haughty message of Premier Salisbury of little more than a year ago in answer to Secretary Olney's equally peremptory and haughty note, and the grave and stern message of President Cleveland in relation thereto, with the happy result in regard to the Venezuelan question and the treaty of peace now before the United States Senate for ratification or rejection, and, on the face of it, this sudden change of attitude on the part of both British and American statesmen seems almost incomprehensible. The truth is—and this is a fact the United States Senate should not forget at the present juncture, when such mighty, almost incalculable, results hang upon its decision—this change of front has been brought about by the people of Great Britain and America, and the rulers and diplomats of the respective countries have been acting in obedience to an almost imperative popular demand. Friends of peace, scholars, students, business men—in short, the people in general in both countries—when brought to face the possibility of war with a kindred nation, actively exerted themselves to avert what would have been a calamity to civilization.

The Republican party of California is now grovelling before Duckworth, the Chief Clerk who was caught in crooked work in the California legislature. He dares them to expell him saying that if he goes he will drag down others. The threat has settled the business and they have concluded to allow him to hold a position he has thoroughly disgraced. From this one can judge of the sort of timber the Republicans have selected in California to represent the people. Such miserable petty thievery at each session disgraces the California legislature, has been conspicuous in Nevada by its absence for 10, these many years.

Members of the Legislature are requested to leave orders for all daily California or local papers (except Carson papers) at John G. Fox's, opposite the State Capitol. A full line of all kinds of stationery and legislative bill files on hand.
